The PSI Line Pro® DLT3S-RJ11 and DLT-3S-TB telecommunications line surge protectors have 3 stages and take advantage of the latest technology available. The DLT3S-RJ11 surge protector is designed and tested to ANSI/IEEE B3 Impulse standards that exceed normal UL 497 testing standards by 900 times. The Line Pro™ is unlike other telecommunications line surge protector in both performance and surge withstand capability. The DLT3S-RJ11 and DLT3S-TB were developed specifically to protect telecommunications lines where 1 pair of lines needs maximum surge protection. The Line Pro™ DLT3S-RJ11 and DTT3S-TB is self restoring after each surge within ratings and is provided with the manufacturers lifetime product warranty.
